

CRISTIAN SCLIFOS

Full-Stack Developer

✉ sclifos.cristian@gmail.com |  [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Motivated and adaptable Full-Stack Developer with hands-on experience in designing and implementing scalable web applications, including creating and maintaining Skill-maps.com. Proficient in a range of programming languages and tools, I excel at front-end and back-end development, server management, and CI/CD pipeline automation. Currently an IT Service Desk Analyst at the University of Greenwich, I bring strong problem-solving, communication, and teamwork skills, complemented by a commitment to continuous learning through certifications in AWS, Azure DevOps, and more. Fluent in English, Romanian, and Russian, I am passionate about delivering innovative solutions and driving impactful results.

Skills

Programming Languages: HTML, CSS, Java, JavaScript, Python, R, Bash

Tools & Technologies: Visual Studio Code, OpenCart, Azure

Other Technical Skills: Microsoft Office Suite, Git version control, API integration

Soft Skills: Problem-solving, Time management, Communication, Team collaboration, Adaptability

Professional Experience

IT Service Desk Analyst

University of Greenwich, Nov 2023 - Present

- Provide hardware and software maintenance and support for existing systems.
- Collaborate proactively within the IT support team to resolve issues.
- Deliver both reactive and proactive IT support and maintenance in teaching spaces.
- Conduct regular IT maintenance, including hardware and software inspections.

Full-Stack Developer and Owner

Skill-maps.com, Jun 2022 - Present

- Designed and implemented the platform's front-end using HTML, CSS, and JavaScript.
- Developed back-end functionality to manage server-side logic and ensure secure & efficient data processing.
- Monitored server infrastructure and domain operations to guarantee optimal performance and uptime.
- Conducted regular debugging, testing, and updates to improve the system's reliability and user experience.

Web Designer

Global Job, Jan 2017 - Jun 2022

- Created and renewed brand books for sub-companies, ensuring consistent and engaging branding.
- Edited video, sound, and image content for various platforms.
- Adapted advertising content for web, television, outdoor, and radio.
- Adapted content for social media platforms to increase engagement and reach.

Web Developer

JOMA RM, Mar 2015 - Jan 2017

- Administered and maintained the joma.md website using the OpenCart platform.
- Designed brochures and advertisements using Photoshop for online and print distribution.
- Adapted advertising materials for web and television campaigns to enhance brand reach.
- Implemented email marketing strategies and optimized the website for SEO to improve traffic.

Projects

Skill-maps.com (June 2022 – Present)

Designed and developed a platform using HTML, CSS, and JavaScript. Managed server infrastructure and domain to ensure optimal performance. Implemented user-friendly features and responsive design for enhanced accessibility.

CI/CD Automation Pipeline (Final Year Project)

Built a fully automated CI/CD pipeline using Git and TeamCity to streamline software development workflows. Implemented version control, automated testing, and deployment for continuous integration and delivery.

Education

BSc (Hons) Software Engineering,
University of Greenwich, London | **Expected:** First Class

Languages

English: Fluent
Romanian: Native
Russian: Proficient

Certifications

Using Git with Visual Studio Code, LinkedIn, Dec 2024
AWS Essential Training for Developers, LinkedIn, Nov 2024
